Wailuku, Maui – Council Member Danny Mateo and Mayor Charmaine Tavares announced today they will host a community meeting on Molokai on Tuesday, July 8 at 6:30 p.m. at the Mitchell Pauole Center in Kaunakakai.

"In light of the announcement by Molokai Properties that it will stop providing water and wastewater services at the end of August, we would like to assure Molokai that the County is doing everything possible to protect the community's rights to essential needs such as water and sewer service," said Council Member Mateo.

Mayor Tavares said, "This is a very serious situation. Both Council Member Mateo and my administration have been addressing the situation since Molokai Properties made its announcement. I look forward to meeting with the community to provide as much information as possible."
